

Capacity Building lecture in Geology under RUSA

(M.Sc./ B.Sc. students and Staff)

Date of Event: 27/07/2015

Invited Guest- **Dr N.K. Dutta**, Retd. Director General, GSI, Calcutta

A lecture was arranged on 27th July on capacity building for Geology students and staff under RUSA. Dr Nitish Dutta, Ex. Director General, GSI was invited for the occasion.

The programme was started with sarswati vandana. Dr S.S. Bhadauria, Head, Department of Geology and Prof. Pradeep Thakur, welcomed the Chief Guest Dr Nitish Dutta. Dr Rajeeva Guhey, IQAC coordinator, has given brief introduction of Dr Dutta and invited him for his deliberations.

Dr Dutta delivered his lecture on different aspects of geology with particular reference to Chhattisgarh Basin and India in general with the help of PowerPoint presentation. He explained how to make the subject geology interesting and has given tricks to remember important events of Earth's history. Students need to be more vocal in explaining the subject. According to him, an average student, if confidently and boldly reply in an interview is much better than a meritorious student who does not responds. Students should develop communicative skill in order to explain subject easily. Students should prepare themselves before facing an interview. So study hard and build your capacity to succeed in every field of your life.

The lecture was attended by UG/PG/ PhD students and staff of our department.
