

Skill development on surface geophysical investigation

Date of Event: (4th nov2019-8th nov2019) RGI, RAIPUR

Context: New techniques in ground water studies
Objective: Practical training in geophysical exploration
Activity: Presentation, practical training on classroom & data check on field
Evidences: Photographs. Attached
Impact Analysis: a) **Learning outcome-** expertise in the field of exploration for groundwater investigation
b)**Beneficiary:** Students of M.Sc. Geology
